## Condition of the Week Musculo-Skeletal and Joint Pain

Ozone is excellent for all forms of musculo-skeletal and joint pain including chronic neck and back pain, rotator cuff injuries, degenerative and arthritic hips and knees, degenerated discs, and shoulder and elbow pain. Because in many cases it actually corrects the pathology of the disorder, there is a 75% chance for the chronic pain sufferer to becoming permanently pain free.

Ozone is a connective tissue injection therapy of collagen producing substances and ozone gas which can reconstruct damaged or weakened connective tissue in and around joints. These substances are injected into the damaged connective tissue in and around a joint to rebuild the damaged areas.

## Ozone Therapy Dramatically Improves Arthritic Joint

Ozone is a form of non-surgical ligament reconstruction and is a permanent treatment for chronic pain. By repairing the connective tissue this is all that is needed to permanently reverse chronic pain.

**So what are you waiting for?**

Dr. Ronald Ambrosia, DO  
Dr. Stefan Getzik, Chiropractic Physician  
Dr. Theresa Chambers, DPT  
Haygen Mowder FNP-BC
